

REMARKS

On April 13, 2005, Applicants filed a Request for Continued Examination. This opportunity is being taken to add dependent Claims 20 and 21 to describe details of the preferred embodiment of the invention. Both of new Claims 20 and 21 are dependent from Claim 1. Claim 11 is being cancelled to reduce the number of issues in this case.

Claim 20 describes, among other features, procedures that may be used to determine the density of traffic in a given region.

It is believed that this application is in condition for allowance, a notice of which is requested. If the Examiner believes that a telephone conference with Applicants' Attorneys would be advantageous to the disposition of this case, the Examiner is asked to telephone the undersigned.

Respectfully submitted,

John S. Sensny
